

POSITION OVERVIEW

Job Title: Neuroradiologist
Department: Radiology
Reports to: Medical Director
Location: Pensacola, FL

PRACTICE OVERVIEW

Radiology Partners is the largest and fastest growing on-site radiology practice in the US. We are an innovative practice focused on transforming how radiologists provide consistently exceptional services to hospitals, imaging centers, referring physicians, and patients. With our state-of-the-art clinical technology, specialized expertise, access to capital, and retention of top physician talent, Radiology Partners reliably exceeds the expectations of our clients, patients, and partners. We serve our clients with an operational focus, and, above all, a commitment to quality patient care. Our mission is To Transform Radiology.

We operate an internal 24/7 Results Communication call center to coordinate results and clinical contact. The Advisory Board Company's Health Care Advisory Board and the American College of Radiology have recognized this innovative customer service function as a "Best Practice". *We are committed to providing unparalleled service and value to patients, facilities, payers and providers.*

POSITION SUMMARY

Sacred Heart, part of Radiology Partners, is seeking a full-time fellowship trained Neuroradiologist. The ideal candidate will be comfortable reading a mix of neuro and diagnostic imaging. This opportunity is a full-time, with the full range of benefits, and includes a sign on/relocation bonus.

Sacred Heart Health System's regional services include the region's only facility specializing in the care of children - the Studer Family Children's Hospital at Sacred Heart, the Regional Heart and Vascular Institute, the area's leading Stroke Center, a Level II Trauma Center, and a Cancer Center affiliated with MD Anderson Cancer Network. Sacred Heart is committed to delivering compassionate, personalized care to all, with special attention to persons living in poverty and those most vulnerable.

POSITION DUTIES AND RESPONSIBILITIES

- Primary focus on Neuroradiology, with some diagnostic reads
- Be comfortable with all aspects of diagnostic radiology

DESIRED PROFESSIONAL SKILLS AND EXPERIENCE

- Must be a Doctor of Medicine or Osteopathy, Board-certified and residency trained in the practice of Diagnostic Radiology
- Completed one year of post-residency fellowship training in Neuroradiology
- American Board of Radiology (ABR) certified or eligible
- Licensed or have the ability to be licensed in the state of FL
